

Defamation and False Statements Targeting Dihang Group

I am writing to address an urgent and deeply concerning matter on behalf of DiHang Group, the leading and outstanding manufacturer in China's fencing industry. We have recently discovered that a competitor (S**** Fencing or Name B***** Metal Works) is deliberately spreading false information and faking images with the malicious intent of damaging our hard-earned reputation. This is an action we find wholly intolerable, as it inflicts significant harm upon our business and our brand.

DiHang Group has consistently demonstrated unrivaled excellence in the fence manufacturing sector. Our unwavering commitment to quality and innovation has solidified our position as the industry's undeniable leader. Our clients over the world have consistently praised our dedication to excellence, serving as a testament to our unwavering commitment to quality.

We will leave no room for ambiguity: we are fully prepared to protect our rights and interests, and we will not hesitate to utilize all available legal means. If the offending party persists in these malicious activities beyond one week from the date of this letter, we will have no option but to escalate the matter legally. This will involve serving a formal cease-and-desist order, commencing legal actions for defamation and libel, demanding public retractions (through public statements or email communications), and, if necessary, initiating criminal proceedings.

We strongly encourage all our clients to base their judgments on verified facts. DiHang's products have consistently showcased exceptional quality and reliability, as evidenced by the satisfaction of our extensive client base. We implore you not to fall victim to the baseless fabrications and unfounded allegations spread by our competitors.

The audacity of these attacks stems from DiHang Group's undeniable market dominance and our unwavering dedication to setting industry standards. Our success has evidently unsettled certain quarters within our competitive landscape, prompting this relentless campaign of defamation—a desperate response to our market superiority.

We cordially invite all interested parties to visit our state-of-the-art manufacturing facility. After witnessing firsthand, the quality of our operations and our superior products, we are confident that any doubts regarding the quality and excellence will be eliminated.

We trust that formal legal action will prove unnecessary, as we steadfastly believe in the power of truth and integrity. Nevertheless, we are fully prepared to defend our reputation and interests through every legal recourse available should the need arise.

Consider this letter as our unequivocal notice of intent. We anticipate the relevant party immediate attention to this matter and the immediate cessation of all defamatory activities within the specified timeframe.

Sincerely,
[Dihang Group]

[Enclosures: Evidence of Defamatory Actions, if applicable]

Customer A:

You know S**** fencing? They visited us just now, full lies and bad words about DH, I hate that, I told him, I know DH, I know their quality, I don't like you speak ill of others behind their backs.

Customer D:

Do you know the company S**** Fencing(Wei Fang B**** Metal Works Co.,Ltd, this is another name they use)? They visited us yesterday and want our business, they were talking about Dihang and lying about the quality of their products which made us very upset because we know it is a lie. I know Dihang's quality is very good, and I do not like hearing Spark Fencing say these lies. I think they may also try to tell Dihang's other customers these same lies. I just wanted to let you know about this.
